

SYMMETRY
Reviewer guide

THE STYLE YOU WANT, THE PROTECTION YOU NEED.

When it comes to your smartphone, it's not just about the protection. It's also about you — your style, your personality, your life. With the new Symmetry Series™, you don't have to choose between a protective case and a stylish one. You can have it all.

SLIM, DUAL-MATERIAL CONSTRUCTION

Symmetry Series is the culmination of over a year of design, testing and innovation. This sleek case is simple to install in its one-piece form. But don't let its elegant simplicity fool you — the dual-material construction makes Symmetry Series one of the slimmest, most protective cases in its class.

SEAMLESS DESIGNS

Style matters. If it didn't, you could just wrap your phone in a plastic shell and call it a day. Symmetry Series lets you choose from a wild array of colors and graphics, so you can strut your style and stand out from the masses.

TRUSTED PROTECTION

Featuring a streamlined design that delivers tough protection from drops and shock, Symmetry Series gives you something no other case can — confidence knowing your device is protected by the No.1-most trusted case brand in smartphone protection.*
